
Impact 2 Terms and Conditions

Impact 2 has been created and copyrighted by Marie Stopes International (MSI). The model has been developed to assist the health and development sectors to estimate the impact of reproductive health interventions. We hope this will be widely used and therefore it is free and publically available for non-commercial use. Commercial use and modifications of the tool are prohibited without prior written consent from MSI.

Any results from the model must be cited with "*Impact 2, Marie Stopes International, 2016*" as the source. In addition, results must be presented as estimates only. While MSI has taken all reasonable measures to ensure all calculations and information in the model are correct, MSI takes no responsibility for results obtained by other users.
